

Service Engineer Job Posting

SS Enterprises is an organisation working for Edwards Vacuum in north India for supporting their sales and service requirements. Edwards Vacuum is a UK based leading manufacturer of high technology vacuum equipment. We have outstanding opportunity as a Service Engineer at our Dehradun office for Edwards Vacuum. This is an excellent opportunity for anyone seeking a challenging opportunity with a stable, long-term career path with a top company that offers opportunities to freshers.

The Service Engineer should have the ability to utilize his/her electromechanical skills to provide excellent service to our customers. As part of the Field Service team, you will be responsible for installation, maintenance and troubleshooting high vacuum pumps, abatement, gas and chemical delivery systems at our customer location in north India. In this role you will perform Preventative Maintenance tasks and troubleshoot errors or failures to root cause. You will recommend or undertake remedial action to restore product to normal operating condition. You must have the ability to demonstrate or train correct PM and/or operation of equipment during the commissioning and setup. This position will require you to complete and maintain various documentation and use computer systems in the execution of your daily activities. As a Service Engineer you will arrive promptly and properly dressed for your assigned shift. You will develop and maintain rapport with customers ensuring customer satisfaction.

Competencies:

Must have a positive attitude, be energetic and enthusiastic possess a strong willingness to learn and a commitment to excellence. A self-starter who can set priorities, can demonstrate initiative and the ability to get the job done. Must be capable of exercising good independent judgment. Possess excellent customer interfacing and communication skills. Able to read engineering drawings and electrical diagrams. Competent in the use of test equipment including various test meters, hand tools, and power tools. Possess basic computer skills which includes thorough knowledge of Microsoft Office.

Required Experience: 0 to 1 years.
